Case Study & Website Rebuild Agreement

The plain-language agreement covering the no-cost rebuild of westlittlerockglass.com, hosting at the same rate as the current Wix plan, and BitBrd's right to publish the results as a case study.

AGENCY

BitBrd — Paul DeSana

CLIENT

West Little Rock Glass — Gavin Higgins

DATE

July ____, 2026

1 What BitBrd Is Providing

BitBrd will deliver the following services to West Little Rock Glass:

- **Website redesign and rebuild** — a new custom-built website replacing the existing Wix site at westlittlerockglass.com, including hosting migration, mobile-responsive design, contact forms, and search engine optimization. **Design, development, and migration are provided at no charge.**
- **Google Business Profile optimization** — tuning of the Client's existing Google Business Profile for local search visibility, at no charge
- **Search engine optimization (SEO)** — on-page SEO improvements including title tags, meta descriptions, structured data markup, and URL architecture, at no charge
- **Call tracking setup** — installation of tracked phone numbers to measure lead sources, forwarding to the Client's existing business line (501-223-3034), at no charge
- **Monthly performance reporting** — one-page monthly reports for a minimum of 90 days documenting traffic, leads, and search rankings, at no charge

Hosting Fee

The Client's existing Wix.com hosting plan (\$249.35/year) will be replaced with equivalent hosting managed by BitBrd at **the same annual rate of \$249.35/year**. This fee covers domain hosting, SSL certificate, CDN delivery, uptime monitoring, and ongoing technical support.

- **No cost increase.** The annual hosting fee matches the Client's current Wix renewal rate exactly.
- **Current Wix renewal date:** January 11, 2027. The Client should **cancel the Wix plan before renewal** once the new site is live and confirmed stable. BitBrd will advise when it is safe to cancel.
- **BitBrd hosting billing cycle:** Annual, beginning on the date the new site goes live. First payment of \$249.35 is due upon site launch.
- **Hosting fee includes:** Domain hosting, SSL/HTTPS, CDN, security headers, uptime monitoring, minor text/image updates (up to 30 minutes/month), and technical support via email.
- **Hosting fee does not include:** New page development, major redesigns, paid advertising, or services beyond routine maintenance. These will be quoted separately per Section 8.

2 What the Client Provides in Exchange

In exchange for the services described above, the Client grants BitBrd the following rights:

a. Case Study Publication Rights

BitBrd may create, publish, and promote a **case study** based on this engagement. The case study may include:

- The business name "West Little Rock Glass" and its logo
- The Client's city and state (Little Rock, AR)
- Before-and-after performance metrics (website traffic, search impressions, phone leads, form submissions, search rankings, and similar digital marketing data)
- Screenshots of the website, analytics dashboards, and search results (with any sensitive data such as customer names or financial figures redacted)
- Photographs of completed glass installations currently displayed on the Client's existing website or provided by the Client
- A general description of services performed

The case study may be published on bitbrd.com, in proposals to prospective clients, on social media, and in marketing materials. BitBrd will **not** publish the Client's revenue, pricing, profit margins, customer lists, or any information the Client designates as confidential.

b. Testimonial Rights

If the Client chooses to provide a written or verbal testimonial about the engagement, BitBrd may publish it with attribution. Providing a testimonial is **optional and not required** under this agreement.

c. Reference Availability

The Client agrees to serve as a reference for BitBrd when contacted by prospective clients. Reference calls are **limited to two (2) per calendar quarter** and the Client may decline any individual request at their discretion.

3 Website Ownership

The rebuilt website, its code, content, images, and domain remain the **sole property of the Client**. If the Client ends the relationship with BitBrd at any time, full access and administrative control of all accounts listed in Section 4 — including hosting, analytics, DNS, and source code — will be transferred to the Client or their designee within 7 business days upon written request.

4 Account & Infrastructure Access

BitBrd currently manages the following on behalf of the Client and will continue to do so under this agreement:

- **Domain DNS** — BitBrd administers DNS records for westlittlerockglass.com
- **Google Search Console** — BitBrd has verified ownership and management access
- **Google Business Profile** — BitBrd manages the Client's listing
- **Google Analytics** — BitBrd administers the GA4 property
- **Website hosting** — BitBrd manages the hosting infrastructure (see Section 1, Hosting Fee)

BitBrd may make changes to DNS records, search console settings, analytics configuration, and Google Business Profile content as needed to deliver the services described in this agreement. The Client will be notified of any major changes (e.g., domain migration, hosting platform change) before they are made.

All accounts and credentials listed above are the **property of the Client**. Upon termination, full access and administrative control will be transferred to the Client or their designee within 7 business days (see Section 5).

5 Duration and Termination

- This agreement begins on the date signed and continues for a **minimum of 90 days**
- Either party may terminate the agreement after the initial 90-day period with **14 days written notice** (email is sufficient)
- Upon termination, BitBrd retains the right to continue publishing any case study materials created during the engagement period
- The Client retains full ownership of the website and all accounts regardless of termination

6 No Guarantee of Results

BitBrd makes **no guarantee** of specific traffic numbers, lead counts, or revenue outcomes. The services are provided on a best-effort basis using industry-standard practices. Performance data will be reported transparently and honestly.

7 Confidentiality

BitBrd will not disclose the Client's customer lists, pricing, revenue figures, or any information the Client marks as confidential. Aggregate performance metrics (traffic, leads, rankings) are **not** considered confidential under this agreement and may be published as described in Section 2a.

Future Paid Services

Any future services beyond those listed in Section 1 — including but not limited to paid advertising management, ongoing SEO, or expanded website development — will be **quoted separately in writing** before work begins. This agreement does not obligate the Client to purchase any future services.
